

Activity Levels

Methylglyoxal

Unique Manuka Factor (UMF)

Only Berringa Honey can offer this Superior Strength Antibacterial Grade Honey. To date, it is the world's strongest grade honey available. With recent independent testing completed verifying a 1,750 Methylglyoxal rating.

Certification Logos

Meaning of the Logos granted to Medi Bioactive Honey Australia

1. Australian Certified Organic

This certificate ensures that all products are audited and certified by Australia's pre-eminent certification agency. Products certified under the Bud logo comply with the internationally recognised Australian Organic Standard (AOS) managed by the Biological Farmers of Australia Co op Ltd. The BFA is a 1,500 member strong not for profit industry association and is the largest organic organisation of its kind in the Australasia region.

ACO is accredited as a certifier by USDA (NOP); Japan MAFF (JAS); IOAS (IFOAM); AQIS; IOAS (ISO 65); and other relevant accreditation programs for worldwide market access.

2. Australian Government Certified

This logo denotes that a product has been independently audited and certified by an AQIS (Australian Quarantine Inspection Service) accredited certifying agency (in this case ACO) to comply with the Australian Government National standard for organic and biodynamic produce. This export standard is one of the world's most stringent agricultural and food standards, recognised for its high level of integrity as one of the world's original and highest organic standards.

BERRINGA MEDI AND BIOACTIVE HONEY

STANDARDS

Certified in accordance with the Australian Organic Standard and in conformity with the Australian National Standard for Organic and Biodynamic Produce and in accordance with the ISO65 accreditation program as accredited by IOAS.

The above named operator is licensed to supply or direct the application of the BFA trademark provided the product has been produced in accordance with the Biological Farmers of Australia Organic Standard 2006 by the operator or under the operator's supervision at the listed location. This certificate is not a commercial document and may not be used as such. This certificate remains the property of Australian Certified Organic Pty Ltd and remains valid until the expiry date or until surrendered, suspended or revoked.

Valid Until 30th April 2010

A HOST OF HEALTH BENEFITS

The world's strongest active antibacterial honeys are harvested from the pristine Pacific coastal ecosystems of Eastern Australia. Berringa Honey is Australian Certified Organic and also Australian Government Certified.

Bioactive Honey is antibacterial and meets the METHYLGLYOXAL standard shown on the label at the time of packaging. Berringa is helpful when consumed prior or during the onset of colds and influenzas to help alleviate the symptoms. It contains antioxidants and may also provide relief from the symptoms of sore throats. Try to consume some every day.

Visit our website www.berringahoney.com for fascinating independent scientific research into the benefits of this wonderful, natural honey. Berringa is provided in dark plastic to protect its valuable ongoing biological activity from the degradation of sunlight.
